## An Interactive Sound Book: Transportation Vehicles

Prepared by:

Curio Team

Additional Pinyin or English references will not be provided,  
as the book is an interactive sound book.

Enjoy!

宝宝点读认知发声书: 交通工具/ Interactive Sound Book:

Transportation Vehicles showcases bicycles, small cars, and buses, which are common modes of transportation in our daily lives. Can you guess the sounds they make? Reach out and press together to find out! Additionally, the book includes Chinese and English annotations, as well as delightful nursery rhymes for you to enjoy.

This interactive sound book helps babies and toddlers learn about transportation vehicles. Each page features vibrant illustrations of different types of vehicles. Babies and toddlers can press the corresponding spots on the page with their fingers to hear the vehicle sounds (press once), listen to readings in Chinese and English (press a second time), and enjoy nursery rhymes (press a third time).
