

强大的兔子

(Lion vs Rabbit)

Prepared by:

Winnie Huang Wenfeng

Age group:
4-6 YEAR OLDS

Overview

Once upon a time in the animal kingdom, there was a Lion who thought he was the king of the jungle. He would bully all the other animals, and they lacked the courage to stand up to him. One day, they decided enough was enough, and they posted an ad looking for a hero to help them.

One by one, animals came forward to challenge the Lion, but none could defeat him. Finally, a little rabbit showed up. The lion was overconfident and thought "How can a tiny rabbit beat a mighty Lion?"

Through multiple challenges, the lion and rabbit battled it out, but ultimately the rabbit emerged victorious. This humbled the Lion and taught him that brains can be more important than brawn, and even the smallest creature can outsmart the biggest bully.

Never underestimating the power of a brain, and always working together to overcome obstacles are the two takeaways from this book. This is a great opportunity to talk to children about teamwork and how the situation could have been solved by the animals themselves if they had worked together.

Glossary

1. 船 (chuán) - boat/ship
2. 非洲 (Fēizhōu) - Africa
3. 北美洲 (Běi měi zhōu) - North America
4. 印度 (Yīndù) - India
5. 比赛 (bǐsài) - competition
6. 爬山 (páshān) - mountain climbing/hiking

Follow-up questions

In the story, which animals competed against the lion, and what are their origins? It would be great if you could show us their locations on a map.

(A: A bear from Russia, a moose from North America, a tiger from India, and a rabbit from Europe.)

The lion is very, very big and the rabbit is very, very small. Can you look around you and find something that is really big like the lion, and something that is really small like the rabbit?

Can you tell me about the games that the rabbit and the lion played against each other?

(A: The rabbit and the lion competed in eating cotton candy, answering questions, jumping, painting, and climbing mountains.)

How do you think the brave little rabbit managed to defeat the mighty lion?

(A: The little rabbit was able to outsmart the big lion by using his intelligence instead of relying solely on physical strength. Additionally, he enlisted the help of other rabbits who possessed different skills and abilities to work towards a common goal. Through teamwork and cooperation, they were able to overcome seemingly insurmountable obstacles.)
